## Whole Number Cards

## There are 52 whole number cards from $0-$

 12 in four suits (clubs, diamonds, hearts, and spades.) These cards can only be the number they represent.

Multiple Of Cards
There are 10 multiple of cards which can be any number that is a multiple of (or divisible by) the number on the card.

# Number Cards 

## There are 8 number cards that can be any

 number that it says on the card.

This card can be any odd number. any even number.

This card can be any square number.

This card can be any prime number.

This card can be any composite number.

# Greater/Less Than 

 Cards
## There are 10 greater/less than cards that can be greater/less than the number on the card.

## Greater/Less Than or Equal Caris

## There are 10 greater/less than or equal cards that can be greater/less or equal to than the number on the card.

## Rounding Cards

## There are 10 rounding cards that can be any number that rounds to the number on the card.

## Directions: How many equations can you make with any of the

 cards above and the card in your hand. If you can make an equation with all 5 cards, you get 10 points for making a "solution".

# Can You Compute? 

Directions: How many equations can you make with any of the cards above and the card in your hand. If you can make an equation with all 5 cards, you get 10 points
for making a "solution".
